SOPHSTONE

“Be as passionate about the product you manufacture
as the relationships you forge” — *Gil Saul*

ORIGIN

SOPHISTICATED STONE

Born in 2017 under the creative direction of artist Gil Saul and longtime friend Brandon Caldwell, **SOPHSTONE** speaks to a niche clientele which values individuality over current trends. The symbolism of the minimalistic logo, two vertical lines on each side of the (S) represent the bond between two friends and a brand done differently.

Driven more by creativity than profits, **SOPHSTONE** remains steadfastly independent. A family-owned boutique manufacturer, providing the flexibility required to incorporate age-old techniques and old-world craftsmanship absent in a market saturated by global brands.

LOCATION

RELAXING MIND, BODY AND SPIRIT

Within the picturesque surroundings of Bali, Indonesia, Gil borrows inspiration, not from concrete and steel, but rather the harmony of living within nature. There is a realization that tradition, craftsmanship, and innovation can coexist. Overcoming the familiar and continually producing recognizable, ambitious, and culturally relevant luxury. The **SOPHSTONE** brand is proudly manufactured entirely in-house, creating exclusive, original designs of uncompromising quality.

PASSION

BEAUTIFUL OBJECTS

From the seeds of creation right through to the production of every **SOPHSTONE** product, our passion for design, creativity, and beautiful objects is what guides us. A flair for thinking outside the box. Focusing on indulgence and relaxation, form and function must live in harmony. We succeed only by being passionate.

"If you analyze the function of an object, its form often becomes obvious."

-
Professor Ferdinand Alexander Porsche.

CRAFTSMANSHIP

HUMAN TOUCH

No product created by the human hand will ever be without flaws, yet the human touch is vital to **SOPHSTONE's** philosophy of unrivaled craftsmanship. There is beauty within the subtle flaws of imperfection and warmth in the human touch. At the same time, SOPHSTONE has standards and practices throughout its manufacturing process that are as rigorous as any you'll find in any industry. The perfect balance between modernity and tradition.

SOPHSTONE is individually and meticulously handcrafted by exceptional people, applying stunning attention to detail and taking enormous pride in the brand they help create.

FEEL THE
DIFFERENCE

MATERIAL

VELVET SOFT

A **SOPHSTONE** product can be recognized simply by running your fingers across the surface. Embracing your sense of touch. Great pride was taken by starting from scratch, engineering a material that satisfied all our core values. From reclaimed and re-purposed fine glass powder, to the highest quality resins and all natural raw minerals, our standard and practice is to always place quality over cost.

The end result is what defines us, **SOPHSTONE**, the Brand and the Material. Environmentally conscious, durable, versatile, and unlike other global products, absolutely pleasant to the touch.

SOPHSTONE, feel the difference.

EXCLUSIVITY

LIMITED PRODUCTION

SOPHSTONE is an independent entity, financially and creatively, and does not live in the world of global branding and mass production. This gives us total independence in our values and our artistic perspectives. Manufacturing is done by hand for the simple reason that it is impossible to meet our standard using machines alone. This ensures limited production and exclusivity for those who purchase.

EXCLUSIVE
ORIGINAL DESIGNS

WHERE
FUNCTION
+ **ART** COEXIST

A **SOPHSTONE** DESIGN

SOPHSTONE is individually and meticulously handcrafted by exceptional people, applying stunning attention to detail and taking enormous pride in the Brand they help create.

A **SOPHSTONE** design has key attributes making it unique and easily recognizable in the industry.

- Construction
- Design
- Shape

Dual wall construction ensures the inner shape is not restricted by the outside design. Each entity being independent of the other, allows unique outside silhouettes while embracing indulgence and relaxation.

Authentic designs inspired by nature and our surroundings, not industry trends. Individuality is what drives us.

Elegant yet contemporary shapes, many asymmetrical in design. Elevating our thoughts and redesigning the perception of what the bath should look like. Luxurious yet comfortable. Embracing indulgence and relaxation. Encapsulating the mind body and spirit. This is...

The SOPHSTONE Experience.
